Three Things We Love:

- (1) Yellow castle looks great, especially next to the original.
- (2) The red, green, and yellow contrast well.
- (3) Yellow castle opens up, like the original, and moving drawbridge.

Three Things To Critique:

- (1) Mini size, so more for a shelf display then in our Lego Castle Kingdom.
- (2) No playability, just nostalgia.
- (3) Could have thrown in nanofigs like Harry Potter castle.

Interesting / Rare Facts:

- (1) Mini-replicas of some of the original Lego sets.
- (2) Free with qualifying purchases at LEGO.com, January-February 2018.
- (3) Back of box has images of the original sets.
